SOCIALISING

ASSOCIATING

GOVERNING

EXPERIENCING

The orientation program aims to familiarize newly joined students with the college campus and dental curriculum, while introducing them to the rules, regulations, and campus life. It will also acquaint students with the available support systems to help them navigate the challenges of professional and hostel life.

Additionally, the program highlights extra-curricular activities and campus facilities, such as the library, sports complex, and e-learning opportunities, encouraging a well-rounded experience. Students will also be introduced to extension activities like NSS, emphasizing their role in society, and will be made aware of the Ragging Menace and its prevention.
