IMPORTANT! The analysis contains 2 warning(s).
About 75% of this document consists of text similar to text found in 95 sources. The largest marking is 160 words long and is 100% similar to its primary source.

PLEASE NOTE that the above figures do not automatically mean that there is plagiarism in the document. There may be good reasons as to why parts of a text also appear in other sources. For a reasonable suspicion of academic dishonesty to present itself, the analysis, possibly found sources and the original document need to be examined closely.
