7.1.2 Measures initiated by the institution for the promotion of gender equity during the last five years.

Introduction

It is very much obvious that gender equity is still a stigma in our society, where the opposite gender treats the other one as inferior category. Gender equity must be the basic quality of our society where men, women and other gender like transgender must be treated equally. Unfortunately, it not yet achieved completely in our society. But we, as a citizen of this country, must take a step forward for fulfilling this basic quality a society must have, and hence we can attain harmony. Our Institution is very peculiar in this thought and we believe that we must provide the atmosphere where all the genders are equally treated in a good way. So we have taken initiatives to conduct several gender equity programs in our institution.

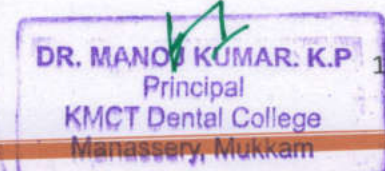

Programs organized:

1. Programs on importance of learning self-defense.
2. Counseling session for the students who have faced physical or verbal abuses in the past
3. Program conducted on constitutional rights- gender equality.
4. Program conducted on premarital counseling.
5. Various seminar, workshops, essay writing competitions on Gender issues.
6. Celebration of International Women's Day where the issues pertaining to women, women's health, safety are highlighted.

Safety and social security:

- With the rising crime rates, KMCTDC has taken the following measures so that safety and social security in the campus is ensured

1. Security agency posted in different strategic locations
2. Checking of vehicles and people at all exit and entry points
3. The institute has planned to install more CCTV camera for close monitoring of activities in campus
4. Separate hostels facilities for boys and girls students
5. Prior Permission to be obtained from staff in-charge, Principal & wardens for availing leave
6. Timings for entry and exit into hostels

E-mail: dental@kmct.edu.in, website: www.kmctdentalcollege.org

7. Display of helpline numbers throughout the campus for any emergency
8. Senior faculty members reside inside the campus for easy approachability during emergencies
9. Round the clock ambulance service available within the campus
10. Convenience store and coffee shop within campus.

Counseling:

- Through counseling, students are given advice on how to manage and deal with emotional conflict and wide array of personal problems. Three tier system of counseling procedure is carried out at KMCT
1. KMCTDC has implemented a mentor mentee system where in female students with health, mental and physical issues (mental stress, depression, general academic related issues, ward-parent and student-faculty relationships, personal losses, etc) are identified. The mentor counsels them and tries to resolve the issue at this level.
 2. If issues are not resolved at the mentor level, the student is directed to a SSGP trained staff member, and if not, the student is then directed towards professional counselors
 3. KMCTDC has appointed professional counselors who counsel the students in dealing with personal issues and helps them to accomplish mental health, wellness, education, and career goals.

Common room:

- Separate Common room for girl students in every block of the institute with attached toilet facility

Day care center:

- As there is an increase in the number of women with babies who join for UG and PG course, as well as female staff members in the college, it is essential that the college provides a day care centre to cater these needs
- KMCTDC has provided a clean and safe area, which cares for the children of the UG, PG & staff members. The facility is run by trained professionals within the campus and is operational from 8 am to 5 pm.
