

The college places emphasis on specific attributes, including sincerity, integrity, empathy, honesty, hardworking nature, and teamwork skills. Students undergo training not only in academics but also in diverse areas.

Posting in Palliative Medicine Department: Students engage in a two-week posting in the Department of Palliative Medicine at Calicut Medical College. This experience aims to broaden their understanding not only of medical aspects but also to cultivate attitudes of gratitude towards life, empathy, and kindness towards others.

Posting in Satellite Clinic: Another two-week clinical posting takes place at the satellite clinic of KMCT - Community Care in Meenchantha. This opportunity provides insights into the overall functioning of a clinic, distinct from the college environment.

Interzone Art Fest: Encouraging student participation in various art festivals allows them to showcase talents beyond academics. This fosters self-confidence, provides a platform for self-expression, and promotes camaraderie.

Sports Meet and Competitions: The college organizes both intra-college and inter-college sports competitions. These events aim to build strong bonds among group members, foster a healthy competitive atmosphere, and prepare students to cope with stress and failure in their future endeavors.

Platforms for Presentation Skills: Students are actively encouraged to enhance their presentation skills through opportunities such as paper presentations. Assigned different topics, students deliver presentations that are observed by teachers, who provide necessary corrections and suggestions.

NSS Activities: The college conducts various NSS activities to enhance teamwork and leadership skills, fostering a sense of social commitment among students.
