The faculty at KMCT Dental College likely leverages various technologies to enhance the educational experience. Our next year visionary involves

1. **Virtual Learning Environments:** Utilization of virtual labs, 3D models, and virtual reality applications could enhance practical learning experiences, especially in dental anatomy and procedures, offering students immersive and interactive learning opportunities.
2. **Remote Assessments and Evaluation:** Through teleconferencing, teachers conduct assessments, quizzes, and examinations securely, ensuring academic integrity while remotely evaluating students' progress.
3. **One-on-One Consultations:** Teachers schedule virtual office hours to provide personalized guidance and support, fostering a conducive environment for individual student queries and discussions.
4. **Mobile Applications:** Customized mobile apps or platforms might be employed for quick access to study materials, schedules, and supplementary resources, catering to the on-the-go learning needs of students..
5. **Assessment and Evaluation Tools:** Use of online assessment tools and software for conducting quizzes, exams, and assignments could streamline the evaluation process and provide instant feedback to students.

The implementation of these ICT-enabled tools at KMCT Dental College likely aims to create an enriched learning environment that caters to diverse learning styles while keeping up with advancements in educational technology. However, for the most recent and precise information, it's advisable to directly contact the college or refer to their updated documentation.

Program Report: Art of Mentoring Workshop

Event Details:

- **Title:** Art of Mentoring Workshop
- **Date:** November 22, 2022
- **Time:** 2:00 PM - 4:00 PM
- **Venue:** Mini Auditorium, KMCT Dental College

Objective: The Art of Mentoring Workshop held on November 22, 2022, at the Mini Auditorium of KMCT Dental College aimed at enhancing mentoring skills among the participants. The program focused on providing valuable insights into effective mentoring techniques and strategies, fostering a culture of mentorship within the academic and professional community.

Agenda:

1. **Introduction to Mentoring:** The workshop began with an introduction to the concept of mentoring, emphasizing its importance in personal and professional development.
2. **Keynote Address:** Renowned experts in the field of mentoring delivered a keynote address, sharing their experiences and shedding light on the significance of mentorship in various domains.
3. **Interactive Sessions:** The program featured interactive sessions where participants engaged in discussions, case studies, and role-playing exercises to enhance their practical understanding of mentoring dynamics.
4. **Skill-building Workshops:** Concurrent skill-building workshops were conducted, focusing on specific aspects of mentoring, such as effective communication, goal setting, and feedback mechanisms.
5. **Best Practices Sharing:** Experienced mentors shared their best practices, challenges, and success stories, providing participants with real-world insights into effective mentoring strategies.
6. **Panel Discussion:** A panel discussion brought together experts from diverse fields to discuss emerging trends in mentoring, the role of mentorship in career progression, and the impact of mentorship on personal and professional growth.

Participant Feedback: Participants expressed high satisfaction with the workshop, citing the interactive nature of the sessions and the practical applicability of the skills acquired. Many highlighted the diverse perspectives presented by the speakers and the opportunity to network with seasoned mentors.

Conclusion: The Art of Mentoring Workshop on November 22, 2022, was a resounding success, contributing to the professional development of participants and fostering a culture of mentorship within the KMCT Dental College community. The knowledge and skills gained during the workshop are expected to have a lasting impact on the mentoring relationships formed within the institution.

Acknowledgments: We extend our gratitude to the organizers, speakers, and participants for making this event a success. Special thanks to our speakers for their invaluable contributions to the program. This workshop is a testament to the commitment of KMCT Dental College to the continuous improvement and growth of its academic and professional community.

MENTOR LOG BOOK

MENTORSHIP PROGRAM – KMCT DENTAL COLLEGE

MENTORSHIP: In order to acquaint and equip the new students with the competencies and academic processes, mentoring by senior and experienced shall form the integral element of professional development.

In mentoring, a sound and trusting relationship will rely upon the degree of understanding and responsibility shared by the mentoring partners. The establishment of the relationship is crucial and will aid in professional excellence.

Mentoring is contributing time, attention, insights, and advice to help a mentee within an environment where they have apt resources and support to develop social, technical and intellectual capital. Mentoring requires partnership and collaboration. Mentoring works well when everyone with a stake in its outcomes is fully involved in its planning and implementation. A mentorship is a relationship between two people where the individual with more experience, knowledge, and connections is able to pass along what he has learned to a junior within a certain field.

Objectives of mentorship:

Create a culture that sees mentorship as an effective way of developing proficient individuals. To ensure that students perform academically and professionally up to their potential through mutual support and a congenial learning environment.

Guidelines for Mentor- Mentee program

In the starting of the academic year, mentees will be allotted to Mentor-by-Mentor coordinator/ Head of the institution and the tenure of the mentor mentee will be upto completion of that professional year.

The mentor- mentee program

- Students shall be assigned to Mentors (Teaching faculty) right from the first year of the programme.
- A mentor shall have a reasonable number of students as Mentees.
- The mentees preferably will be attached to the same mentor for the entire duration of the programme of study.
- The mentor shall meet the mentees regularly and record the outcome of the meeting in the hard copy or in the software.
- The mentor shall identify the students performing exceptionally well in curricular or co-curricular activities and report to the head of the institute/department for providing further motivation to advanced/gifted learners.
- The mentor shall also identify the students whose performance/attendance is below par. The mentor shall interact with the student and try to find out the cause of the problem or an

1
DR. MANOJ KUMAR. K.P.
Principal
KMCT Dental College
Manassary, Mukkam

- indifferent behaviour. If required the mentor will involve the parents, head of the department for reforming the student.
- g) The mentor shall be a member in the disciplinary committee, if a student (mentee) violates the code of conduct.

Areas of Review:

- a) Attendance: The mentor shall observe and monitor the attendance of the mentee. He/she shall advise and take necessary follow up actions with regard to students who do not meet the attendance norms of the University.
- b) Academic Matters: The mentor shall also keep a track of the academic performance of mentees including continuous assessment, term end examination and help the mentee through counseling or by arranging remedial teaching, if necessary.
- c) Behavioural and discipline matters
- d) Health and physical well being
- e) Achievements, talents and co-curricular activities
- f) Involvement and contribution in extension / outreach activities

Duties/ Responsibilities of Mentor

- a) Introduce and discuss the concept of mentor-mentee system with the assigned mentees
- b) Call a meeting of all mentees and record their necessary details, note any specific requirement of a student and discuss with them.
- c) Keep a track of the attendance, academic performance and behavioural aspects of the student by interacting with the exam department and the hostel authorities etc.
- d) Support students academically and emotionally
- e) Contact parents to inform the progress of their ward, whenever required
- f) Maintain a record of the progress made by the identified underperforming students and take remedial actions wherever required
- g) To guide students and also to arrange for remedial teaching, if required
- h) Any grievance reported by the mentees should be forwarded immediately to SSGP/Students Grievance Redressal committee or to the concerned authorities.
- i) Schedule meetings with the mentee once in a month during college working hours. Establish an electronic communication means – e-mail, text. Communicate ahead of time, and increase the frequency with which you will check for their communication. Make it clear if and when the mentee can call you on your cell phone.

Duties/Responsibilities of Mentee

- a) To attend meetings regularly
- b) To fill personal information in the form at the time of joining the mentor mentee system
- c) To provide details of attendance, continuous assessment, term end examination, co-curricular, extra-curricular activities to the mentor whenever asked for
- d) Repose confidence in the mentor and seek his/her advice whenever required

KMCT DENTAL COLLEGE

VISION

To be one among the Globally acclaimed teaching Institutions in Dentistry.

MISSION

- ❖ Comprehensive dental care and a multidisciplinary treatment approach, wherein the students learn to see the patient as a whole.
- ❖ Research based on innovations to ease dental practice as well as to alleviate pain and discomfort.
- ❖ Adopting technologies of global standards to provide the best learning experience to students.
- ❖ Training students in recognizing oral health care needs of the marginalized and providing affordable dental care services for the needy.
- ❖ Identifying the emerging challenges in the field of dentistry and adopting methods to overcome this without compromising on the ethical values.

DR. MANOJ KUMAR. K.P
Principal
KMCT Dental College
Manassery, Mukkam

KMCT Dental College, with an intake of 100 students per academic year has set high standard for all curricular and extra-curricular activities. The College desires that students of KMCT Dental College imbibe the quality of this refined service and excel in professional and personal life. The college is affiliated to Kerala University of Health Sciences, Kerala and has the approval by Dental Council of India.

The Rules and Regulations are applicable to all the students of the College and is displayed in the college website which is in a downloadable and printable format.

WORKING HOURS:

College working hours: 8:00 am–4:00 pm.

- Students are not permitted to enter or leave the classroom without the permission of the faculty. In any case, late-comers are not entitled for attendance to the relevant session.
- No student shall leave the campus during class hours without the written permission from the HOD/Principal.

COLLEGE AUTHORITY:

The Principal is the ultimate 'Authority' regarding discipline or any other matter in the college and any decision/action taken by the said Authority shall be final and binding.

IDENTITY CARD:

Each student of the college will be issued an identity card and it is mandatory that every student must carry the identity card with them.

RULES & REGULATIONS AT KMCT DENTAL COLLEGE

- Neatly ironed uniforms are compulsory for all students of this institution.
- All the students must wear a neat apron over the uniform and ID card during working hours.
- Male students must come with clean shaved face.
- Formal shoes are compulsory. Slippers, sports shoes and sandals are not allowed during working hours.
- Female students should tie up their hair neatly.
- Students must take care of the college property and any damage to the property will be viewed seriously and damage cost will be taken from the students.

DR. MANOJ KUMAR, K.P.
2
Principal
KMCT Dental College
Manassery, Mukkam

- Students shall not take part in any anti-social activities or any kind of ragging inside the campus, if noticed; strict action will be taken against them.
- No political or other movements are permitted inside the campus.
- Separate hostels for both boys and girls are provided inside the campus and those who stay in hostel must follow the hostel rules and regulations.

Academic Rules and Regulation

The conduct and academic performance of each student will be reviewed periodically by the authority and appropriate steps will be taken on the issue which may include detaining from appearing for the University Exam or expelling from the hostel or college depending on the severity of the offence.

KMCT Dental College strictly adheres to rules and regulations set by Kerala University of Health Sciences (KUHS) and by Dental Council of India (DCI). The pre-requisites to qualify for appearing in the University Examinations are as follows.

- All students must have 80% attendance in each year to appear for the university exam of the consecutive year, and students who have attendance less than that will not be allowed to write exam strictly.
- If any candidate fails in an exam, then they will have to appear for the exam of the failed subjects by the end of next 6 months.
- The candidate shall have to pay the exam fee and other fees for the extended duration of course without fail.
- Tuition Fees once paid to the college will not be refunded, under any circumstance.
- Any student admitted to course has to complete the first year B.D.S. without any arrear within 3 years from the date of admission.
- The course of B.D.S has to be completed within 9 years from the date of admission.

PAYMENT OF COLLEGE FEES:

- The college fees have to be paid as per the due-date stipulated by the Management through appropriate notification, failure beyond the due-date will attract penalty as quoted in the notification.

3 DR. MANOJ KUMAR. K.P.
Principal
KMCT Dental College
Manassery, Mukkam

- Tuition and other fees once paid will not be refunded. However, refund of caution deposit may be claimed after the completion of the course after submitting no due certificate from all the departments.
- Students must produce the original receipt for claiming refund of the caution deposit.

ATTENDANCE AND INTERNAL ASSESSMENT

- The attendance of each class will be marked in the academic monitoring software on a daily basis and the parent will be receiving a message if their ward is absent on the particular day, so that parents can keep a track on their ward.
- Every student must have minimum 80% attendance in every subject, which is a compulsory requirement as per KUHS.
- Any student who misses the classes shall have to justify his/her absence to the concerned HOD.
- Under normal circumstances, participating in co-curricular or extra-curricular activities inside or outside the campus during working hours/days without consent from the Principal is considered as absence from classes. However, the said absence may be condoned only on production/submission of a copy of certificate of participation or a written note from the teacher/authority concerned.
- Any absence for more than 3 days because of health issues shall have to be substantiated by production of a medical certificate within two days of the students resuming attending regular classes.
- Internal assessment examination will be conducted thrice a year by the college and the internal marks will be sent to the university by evaluating the average of 3 internal examination marks and attendance percentage.
- It shall be the duty of the student to check their attendance and internal assessment marks displayed on the notice board. Any discrepancy in the attendance or marks shall be immediately brought to the notice of the concerned HOD. No change/modification of the attendance or marks will be made once the same are communicated to the University.

ANTI - RAGGING POLICY

KMCT Dental College has a zero-tolerance policy towards ragging and will be dealt with strict punishment.

DR. MANOJ K.P.
Principal
KMCT Dental College
Manassery, Mukkam

PROHIBITION OF SMOKING, USAGE OF DRUGS AND ALCOHOL:

- Smoking, consuming alcohol, being in possession, using, imbibing or distribution of illegal narcotic drugs or any other psychotropic substance or alcohol in college premises or during the time of college activity is strictly prohibited.
- Any violation of the above actions will be dealt seriously.

USE OF MOBILE PHONES AND OTHER ELECTRONIC DEVICES:

- Use of mobile phones is prohibited inside the classrooms or within the academic blocks and if found, strict disciplinary action will be taken against the respective student and mobile phone will be kept under the custody of college authority.
- If mobile phones or any electronic gadgets are found during examination time, immediate action will be taken against the student and enquiry will be done and the student may get debarred by the university.

STUDENTS' RESPONSIBILITIES

- It is mandatory for the students to follow all safety regulations during laboratory practice especially in pre clinicals and clinicals too.
- The Management shall not be responsible for any physical damage or issue that might occur due to the negligence of the student.
- If any damage to the lab equipment or college property is found due to negligence of the student by the authority, the student will have to take responsibility and replace the damaged item.
- Campus politics is not entertained as the college prioritizes professional learning in dentistry, so that students can concentrate more on their studies with their full effort.
- Parties or programs by external agencies are not entertained without prior approval.
- Students must not invite police or media persons to the campus on their own, if in need, must be informed and consent must be taken from the Principal and Management.
- Fund raising, for official programs of the College, has to be carried out under proper supervision and done with complete transparency.
- All the students who possess vehicle and parks it in the campus, must inform the same to the college office and must register the vehicle details.
- Vehicles can be parked only at the allotted area and entry of the same to restricted area is

5

Principal
KMCT Dental College
Manassery, Mulkam

42

prohibited.

- Students can make use of the Grievance Cell available in the College and the genuine issues will be rectified by the authority.
- Any outsiders who are friends or relatives of any student, are required to take prior permission from the Principal by producing valid proof of identity to meet any Staff member/ any student within the college campus.
- Students are responsible for all their belongings and the College is not responsible for the loss of their personal belongings.
- Any act of disrespect towards any staff member which affects the discipline of the college will be seriously dealt and in extreme cases the student may get expelled from the college.
- The college strictly stands against discrimination on the basis of cast, creed, color, religion, class etc. Any act if noticed, will be dealt strictly and disciplinary action will be taken against the student who is responsible.
- Students who do not reside in the hostel provided inside the campus, must provide the College with the details of their place of residence.
- Students who wish to leave the College midstream for any reason will be given a TC (Transfer Certificate) and any other Certificates only on payment of all fees payable for the remaining course duration and on clearing of any other dues to the college.

LIBRARY RULES

Students are allowed to borrow/ refer books subject to the following rules of the Library.

DR. MANOJ KUMAR. K.P
Principal
KMCT Dental College
Manassery, Mukkam

Course Content

(a) Skills

A graduate should be able to demonstrate the following skills necessary for practice of dentistry:

1. Able to diagnose and manage various common dental problems encountered in general dental practice, keeping in mind the expectations and the right of the society to receive the best available treatment wherever possible.
2. Acquire skill to prevent and manage complications if any encountered while carrying out various dental surgical and other procedures.
3. Possess skill to carry out required investigative procedures and ability to interpret laboratory findings.
4. Acquire skill in laboratory procedures involved in dental treatment.
5. Promote oral health and help to prevent oral diseases wherever possible.
6. Competent in control of pain and anxiety during dental treatment.

(b) Attitudes

A graduate should develop during the training period the following attitudes.

1. Willing to apply current knowledge of dentistry in the best interest of the patients and the community.
2. Maintain a high standard of professional ethics and conduct and apply these in all aspects of professional life.
3. Seek to improve awareness and provide possible solutions for oral health problems and needs throughout the community.
4. Willingness to participate in the continuing education programmes to update knowledge and professional skills from time to time.
5. To help and to participate in the implementation of national health programmes.

B. Goals of BDS Curriculum

On completion of the undergraduate training program the graduates shall be competent in the following. –

i. General Skills

- Apply knowledge & skills in day to day practice.
- Apply principles of ethics.
- Analyze the outcome of treatment.
- Evaluate the scientific literature and information to decide the treatment.

7

DR. MANOJ KUMAR. K.P.
Principal
KMCT Dental College
Manassery, Mukkam

- Participate and involve in professional bodies.
- Be capable of self-assessment and be willing to update the knowledge & skills from time to time.
- Inclined to do simple research projects.
- Acquire minimum computer proficiency to enhance knowledge and skills.
- Be aware of one's limitations and know when to refer patients to specialists.
- Be familiar with basic Forensic Odontology techniques and manage Geriatric dental problems.
- Death certification

II. *Practice Management*

- Evaluate practice location, population dynamics & reimbursement mechanism.
- Able to communicate freely, orally and in writing with all concerned.
- Maintain records.
- Implement & monitor infection control and environmental safety programs.
- Practice within the scope of one's competence Communication & Community Resources.
- Assess patient's goals, values and concerns to establish rapport and guide patient care.
- Co-ordinate & supervise the activities of allied dental health personnel.
- Participate in improving the oral health of the individuals through community activities.

III. *Patient Care - Diagnosis*

- Obtaining patient's history in a methodical way.
- Performing thorough clinical examination.
- Selection and interpretation of clinical, radiological and other diagnostic information.
- Obtaining appropriate consultation.
- Arriving at provisional, differential and final diagnosis.

IV. *Patient Care - Treatment Planning*

- Integrate multiple disciplines into an individual comprehensive sequenced treatment plan using diagnostic and prognostic information.
- Be able to order appropriate investigations.

DR. MANOJ K. P.
Principal
Dental College
Mangalore, Mangalore

v. Patient Care – Treatment

- Recognition and initial management of medical emergencies that may occur during Dental treatment.
- Perform basic cardiac life support.
- Management of pain including post operative.
- Administration of all forms of local anesthesia.
- Administration of intra muscular and venous injections.
- Prescription of drugs, pre operative, prophylactic and therapeutic requirements.
- Uncomplicated extraction of teeth.
- Transalveolar extractions and removal of simple impacted teeth.
- Minor oral surgical procedures.
- Management of Oro-facial infections.
- Simple orthodontic appliance therapy.
- Taking, processing and interpretation of various types of intra oral radiographs.
- Various kinds of restorative procedures using different materials available.
- Simple endodontic procedures.
- Removable and basic fixed Prosthodontics.
- Various kinds of periodontal therapy.

C. Competencies Expected- Specialty wise

**ORAL MEDICINE &
RADIOLOGY**

On completion of the undergraduate training programme the graduate should;

- Be able to identify the common dental problems like dental caries and periodontal disease and their sequelae
- Be able to differentiate the normal variations and oral mucosal lesions
- Be able to identify pre cancerous and cancerous lesions of the oral cavity and refer to the concerned specialty for their management.
- Have an adequate knowledge about common laboratory investigations and interpretation of their results.
- Have adequate knowledge about medical complications that can arise while treating systemically compromised patients and take prior precautions/ consent from the concerned medical specialist.

DR. MANOJ KUMAR. K.P
Principal
KMCT Dental College
Manassery, Mulikam

- To formulate a clinical diagnosis, order investigations, seek expert consultations, come to a final diagnosis and chart out a proper treatment plan for patients with oral lesions.
- Have adequate knowledge about radiation health hazards, radiation safety and protection.
- Be competent to take intra-oral radiographs and interpret the radiographic findings.
- Gain adequate knowledge of various extra-oral radiographic procedures, TMJ radiography and sialography.
- Be aware of the importance of intra- and extra-oral radiographs in forensic identification and age estimation.
- Be familiar with jurisprudence, ethics and understand the significance of dental records with respect to law.

ORAL & MAXILLOFACIAL SURGERY

On completion of the undergraduate training programme the graduate should:

- Be able to apply the knowledge gained in the basic medical and clinical subjects in the management of patients with surgical problems.
- Be able to diagnose, manage and treat patients with basic oral surgical problem.
- Have a broad knowledge of maxillofacial surgery and oral Implantology.
- Be familiar with legal, ethical and moral issues pertaining to patient care and communication skills.
- Have acquired the skill to examine any patient with an oral surgical problem in an orderly manner.
- Understand and practice the basic principles of asepsis and sterilization.
- Be competent in the extraction of the teeth under local anesthesia.
- Be Competent to carry out certain minor oral surgical procedures under Local Anesthesia like trans-alveolar extraction, frenectomy, Dentoalveolar procedures simple impaction, biopsy, etc.
- Be Competent to assess, prevent and manage common complications that arise during and after minor oral surgery.
- Able to provide primary care and manage medical emergencies in the dental office.
- Be familiar with the management of major oral surgical problems and principle involved in the in-patient management.
- Be able to Certify Death

DR. MANOJ KUMAR. K.P
Principal
KMCT Dental College
Manassery, Mukkam

PERIODONTOLOGY

On completion of the undergraduate training programme the graduate should:

- Be able to diagnose the patient's periodontal problem, plan and perform appropriate periodontal treatment.
- Be Competent to educate and motivate the patient.
- Be Competent to perform thorough oral prophylaxis, subgingival scaling, root planning and minor periodontal surgical procedures.
- Give proper post treatment instructions and do periodic recall and evaluation.
- Be Familiar with concepts of osseointegration and basic surgical aspects of implantology.

CONSERVATIVE DENTISTRY AND ENDODONTICS

On completion of the undergraduate training programme the graduate should:

- Be Competent to diagnose all carious lesions.
- Be Competent to perform Class I and Class II cavities and their restoration with amalgam.
- Be able to restore class V and Class III cavities with glass ionomer cement.
- Be able to diagnose and appropriately treat pulpally involved teeth (pulp capping procedures).
- Be able to perform RCT for anterior teeth
- Be competent to carry out small composite restorations
- Understand the principles of aesthetic dental procedures

ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

On completion of the undergraduate training programme the graduate should:

- Understand about normal growth and development of facial skeleton and dentition.
- Be able to pinpoint aberrations in growth process both dental and skeletal and plan necessary treatment
- Be able to diagnose the various malocclusion categories
- Be able to motivate and explain to the patient and parent/guardian about the necessity of treatment
- Be able to plan and execute preventive orthodontics (space maintainers or space regainers)
- Be able to plan and execute interceptive orthodontics (habit breaking appliances)

- Be able to manage treatment of simple malocclusion such as anterior spacing using removable appliances
- Be able to handle delivery and activation of removable orthodontic/myofacial appliances.
- Be able to diagnose and appropriately refer patients with complex malocclusion to the specialist.

PUBLIC HEALTH DENTISTRY

On completion of the undergraduate training programme the graduate should:

- Apply the principles of health promotion and disease prevention.
- Have knowledge of the organization and provision of health care in community and in the hospital service
- Have knowledge of the prevalence of common dental conditions in India
- Have knowledge of community based preventive measures
- Have knowledge of the social, cultural and environmental factors, which contribute to health or illness.
- Be able to administer hygiene instructions, topical fluoride therapy and fissure sealing.
- Be able to educate patients concerning the etiology and prevention of oral disease and encourage them to assume responsibility for their oral health.

PROSTHODONTICS AND CROWN & BRIDGE

On completion of the undergraduate training programme the graduate should:

- Be able to understand and use various dental materials.
- Be competent to carry out treatment of conventional Simple complete and partial removable dentures and anterior crowns.
- Be able to carry out Prosthodontic laboratory procedures.
- Be familiar with the concepts of osseointegration and the value of implant-supported Prosthodontic procedures.
- Be able to diagnose and appropriately refer patients requiring complex treatment procedures to the specialist

DR. MANOJ KUMAR, K.P.
Principal
KMC Dental College
Mangalore, Karnataka

PAEDIATRIC AND PREVENTIVE DENTISTRY

On completion of the undergraduate training programme the graduate should:

- Be able to instill a positive attitude and behavior in children towards oral health and understand the principles of prevention and preventive dentistry right from birth to adolescence.
- Be able to guide and counsel the parents/guardian in regards to various treatment modalities including different facets of preventive dentistry.
- Be able to treat dental diseases occurring in child patient.
- Be able to manage the physically and mentally challenged / disabled children effectively and efficiently, tailored to the needs of individual requirement and conditions.

ORAL BIOLOGY

The student should acquire basic skills in: i. Carving of crowns of permanent teeth in wax. ii. Microscopic study of Oral tissues. iii. Identification of Deciduous & Permanent teeth iv. Age estimation by patterns of teeth eruption from plaster casts of different age groups. c)

OBJECTIVES

After a course on Oral Biology, i. The student is expected to appreciate the normal development, morphology, structure & functions of oral tissues & variations in different pathological/non-pathological states. ii. The student should understand the histological basis of various dental treatment procedures and physiologic ageing process in the dental tissues. iii. The students must know the basic knowledge of various research methodologies

ORAL PATHOLOGY & ORAL MICROBIOLOGY

a) OBJECTIVES:

At the end of Oral Pathology & Microbiology course, the student should be able to:

- i. Comprehend the different types of pathological processes that involve the Orofacial tissues.
- ii. Comprehend the manifestations of common diseases, their diagnosis & correlation with clinical pathological processes.
- iii. Understand the oral manifestations of systemic diseases and correlate with the systemic physical signs & laboratory findings.
- iv. Understand the underlying biological principles governing treatment of oral diseases.
- v. Understand the principles of certain basic aspects of Forensic Odontology.

b) SKILLS:

The Following skills are to be developed:

- i. Microscopic study of common lesions affecting oral tissues through microscopic slides & projection slides
- ii. Study of the disease process by surgical specimens
- iii. Study of teeth anomalies/polymorphisms through tooth specimens & plaster casts.
- iv. Microscopic study of plaque pathogens
- v. Study of haematological preparations (blood films) of anaemias & leukemias
- vi. Basic exercises in Forensic Odontology such as histological methods of age estimation and appearance of teeth in injuries.

The undergraduate course involves organisation of year-wise teaching program. However, the course, as a whole, should demonstrate integration of the basic sciences, clinical dentistry & practical or laboratory skills.
